Left ventricular volume regulation in heart failure with preserved ejection fraction

Peter L. M. Kerkhof, J. Yasha Kresh, John K.-J. Li, & Guy R. Heyndrickx

On page 3, the text following equation (2) is incorrectly shown as:

where yielding $\delta = \alpha - EDV_{ave}(1 - r^2)\beta r^2$

This text should appear as follows:

where $\gamma = \beta r^2$ and $\delta = \alpha - EDV_{ave}(1 - r^2)\beta r^2$

The publisher apologizes for this oversight.
